Dear Cristina,

Two pictures used in his patent were published in my articles (2003-2006 years) with other coauthors before my acquaintance with Vannoni.

These pictures can not be used in any patent without my and coauthors permission. Vannoni had not at all any right to publish these pictures without written permission from the authors of the articles.

Please, don't trouble me by calls. I don't want to continue to discuss the problem.

Best regards

Elena
